Legal Programs for Business that Make Cents

Do not let risks that you could have avoided be your undoing. Everyone plans to succeed in business, but few people take the time to protect themselves from the risks of business. Timely legal advice can protect your business from avoidable risks. Do not let cost get in your way. Our **Corporate Plus Programs** offer you access to legal advice while you control the cost! Keep up with your business records and get regular advice. You choose the services you want.

Good, basic legal advice is most effective before you need it. Most people call their attorney when it is too late to prevent liability. Protect your business now; save time and money; protect your personal assets from business liabilities. Get the advice you need when you need it, and do not worry what a call to your attorney will cost. The **Business Call-In Program** is a fixed fee. Cancel any time.

You are in control.

The level of service you choose is up to you.

[Annual Records Maintenance](#)

- Annual Reports, only
- Annual Corporate Records, only
 - Shareholder & Director Minutes
